

The climate in BC is changing: wetter, warmer winters; longer, drier summers

The Partnership is the secretariat for the *Georgia Basin Inter-Regional Education Initiative (IREI)*
<http://waterbucket.ca/viw/category/inter-regional-education-initiative/>

Launched in 2012

Endorsed by 5 Regional Boards – Comox Valley, Cowichan Region, Nanaimo Region, Capital Region and Metro Vancouver.

In April 2015, all recommitted through 2017

A watershed is an asset that provides municipal services. By 2017, the goal is that everyone involved in land use and drainage will understand how to achieve.....

“Sustainable Watershed Systems, through Asset Management”

the partnership
for water sustainability in bc

Contact: Kim Stephens, Executive Director
kstephens@watersustainabilitybc.ca

*Applies to land uses that local government regulates and is founded on an understanding of how the **Water Balance Methodology** integrates the **Site** with the **Watershed, Stream and Groundwater Aquifer***
